Accessories are an essential part of the Business. This Year Hyundai Mobis has launched several accessories under the portfolio which helped us grow our business. We have seen tremendous growth not only in our car accessory sales but also in target achievement rate.

All the new launched items have diversified our range of accessories which has improved overall car accessory sales of the dealership. Our sales team promoted new products like Dashcam, Lower Bumper Garnish (Aura), 3D Mat (Exter), Alloy Wheel (Verna) which created demand in the market.

Since the launch of the Lauderdale system, our multimedia products have been in huge demand because the system comes with both Android & Apple Car Play options.
